***10AM Service: Terri Ware and Micah (Single Mother with Sick Daughter)-**

Financial Assistance Needed

Model Waiver Program would allow her daughter (Micah) to receive hospital or nursing facility level of care at home. The eligibility process does not look at the income for the parent of the individual in the program, meaning she is free to increase her income without penalty.

- Problem - The maximum number of individuals who may be enrolled in the program is 200.
- Problem - There is the potential for a lapse in medical coverage for her baby if she is accepted in the program. Doctors believe a lapse in medical coverage could potentially risk the life of her daughter.
- Assistance Requested - She would be responsible for a medical bill estimated at \$9,000 per day.

NACA Advocate Needed

Neighborhood Assistance Corporation of America (NACA) is a non-profit program which advocates on behalf of homeowners with unaffordable mortgages.

- Problem - Due to the cap placed on Terri's monthly income (in order to receive Social Security Insurance), her mortgage has become unaffordable.
- Assistance Requested - An advocate from NACA can assist by talking with her current loan holder in hopes of making her loan payments more manageable.
